Diversity and expansion in action...

Cosmopolitan Plated's mission is to use fun, interactive group cooking experiences as vehicles to build connection and community, while empowering people, at the table.

Getting People Connected...

**over
3,200**

Experience participants
from all backgrounds,
over the world!

Experiences for Everyone!

Small groups or large
teams. You envision it,
we can create it.

This is how we do it...

We incorporate our "Proven 4-C's" method for success into each of our team-building experiences:

Communication, Capability, Connectivity, Creativity.

and we do it all while...

Cooking

great food together, while
sharing ideas & having fun

What We Bring to the Table!

Not your average cooking class, or typical team building activity...

CUSTOMIZED

Unique Team Events

We work hands-on with your organization or group to create unique experiences specific to your needs. No experiences are just alike.

CONNECTION

Reframed Connectivity

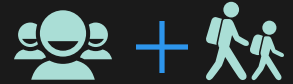

Each experience offers an opportunity for your team to rethink how they connect to each other and what's in front of them, beyond their typical interaction.

CHALLENGES

Creative Approach

We're not JUST cooking! Your team will engage in groups to complete a food-based challenge that relates directly to your organizational goals and mission!

CARRY OUT

Continued Value

Value received from your group experiences - empowerment, connection, creativity - are beneficial in the board room to daily relationships.

What's the Deal?

Simple

We cook up experiences that are engaging, delish, simple, with room for improvisation and experimentation.
Life Lessons here!

Hands-On

You're team's in it together!
No chef standing, talking, and preparing the entire meal.
Each participant prepares or assists others.

Inspiring

We talk, create, cook, laugh, and are honestly kind of loud sometimes. All levels and senses of humor are welcomed.

Empowered

The recipes, techniques, and tips are simple and intuitive. Participants feel they make them at home for friends and family.

Accomplished

Each person works within the classroom community to create the meal and prepare the dining experience. The finale is always full of excitement.

Return On Investment

Your group feels relaxed, inspired, and empowered. Creativity and connectivity happen, organically.

Here's a taste...

Jump out of the office and trade in your computer for a cutting board. Group cooking experiences are great for welcoming new team members, rewarding your colleagues for a job well done, or entertaining clients with fabulous food and signature beverages.

We'll bring out the fun in your team!

Team Building and Corporate Events include a customized three or four-course menu with wine in an interactive group cooking experience. **We even have non-cooking, cooking classes!**

Global Flavors

Your team can build menus inspired by flavors from around the world, including: American, Italian, French, Mediterranean, Latin-fusion, Asian-fusion, Caribbean, and more!

Let's get it started today!

Combine cooking a meal with sitting down to eat together, and bonds build between co-workers. Bonds that carry over from the kitchen to the conference room, enabling problem-solving, improved collaboration, and increased productivity.

By engaging your employees in this unique team-building, you can build more productive teams and a stronger organization.
