What's the Deal?

Simple Recipes

We write recipes that are delish, clear, and simple, with room for improvisation and experimentation. Any level cook can make these recipes.

Hands-On Learning

No chef standing, talking, and preparing the entire meal. Each participant prepares or assists others.

Relaxed Setting

We talk, laugh, and are honestly kind of loud sometimes. All levels and senses of humor are welcomed.

Empowered

The recipes, techniques, and tips are simple and intuitive. Participants feel they make them at home for friends and family.

Accomplished

Each person works within the classroom community to create the meal and prepare the dining experience. The finale is always full of excitement.

Return +++

Fun ensues, flavors are on 10, memories are made, people feel good! They come back often and bring their friends and family.

Here's a taste...
